What is the GLA?

Mission:

Since 1935, the Geneva Lake Association (GLA) has served as a guardian of Geneva Lake and its surrounding area. GLA advances its mission of conservation, preservation, environmental integrity and general welfare of Geneva Lake with timely and issue-centered communications and education through a wide membership base of area residents and local businesses. *See page 72 for the GLA By-Laws.*

GLA services and benefits include:

- Attentive monitoring of Geneva lake area issues and concerns through the GLA Executive Secretary and its 27 member Board of Directors;
- Annual publication of the GLA Directory of residents and pier numbers distributed to nearly 600 member families and businesses;
- Annual updating of the GLA established pier numbering system as a cross reference guide (pier numbers to street address) to enhance lake safety and for emergency use by the Water Safety Patrol, police, ambulance, and fire departments around the lake;
- Periodic distribution to members and friends of the GLA produced newsletter, the Geneva Lake Guardian.

Background:

During its 86 year history, the GLA has grown to a broad membership of residents and businesses representing every village, association, inlet, bay and shore path around Geneva Lake. Residents on and off the lake look to the GLA as the lake-wide organization in place to be attentive and pro-active with an emphasis on communications and education.

The size of the area and the wide, varied interests of its growing population require that the GLA Board include 27 Directors from all corners of the lake. This group, plus several retired (honorary) Directors, the GLA officers and its Executive Secretary form the governing structure of the GLA.

The GLA's foundation is its membership base. It is the only organization of its kind around the lake with dues-paying members as its financial support. All contributions are tax deductible as the GLA is a 501(c)(3) tax exempt organization under IRS and State regulations. While it is virtually a volunteer run group, the GLA carries out its responsibilities with a paid part-time Executive Secretary working within an operating budget to provide services and benefits to a growing membership of nearly 600 families and businesses.

The GLA will continue to serve and support the interests of the wider Geneva Lake community through coordinated relationships with other lake-serving groups whose

missions are compatible, such as the Geneva Lake Water Safety Patrol, the Geneva Lake Environmental Agency, the Kishwaukee Nature Conservancy, the Geneva Lake Conservancy, the Geneva Lake Level Corporation, and the GLA affiliated Environmental Education Foundation.

What has GLA done for me lately?

The following are a few good examples of GLA participation through communication and education in events of significant importance to Geneva Lake over the years:

- Helping with the financing and acquisition of the CD3 equipment, as part of a multi-agency experiment to reduce invasives from entering the Lake by making this boat cleaning machine available for use at municipal launches;
- Increasing awareness and education on issues affecting water quality, including efforts to improve coordination and collaboration of various local agencies with similar concerns;
- Providing financial support for a cover crop experiment to help local farmers reduce phosphorus runoff to the Lake;
- Taking the lead in preventing commercial use of the lake shore path;
- Revising and codifying the rules and signage for the lake shore path among selected property owners and, in the future, the municipalities;
- Securing funding for a Fire Boat for Linn Township to provide additional support to all area Fire Departments;
- Supporting the efforts of the Geneva Lake Level Corporation to maintain the lake's water level;
- Early attention to forming a close relationship with the DNR in Madison to gain critical support in stocking populations of a wide variety of fish in our lake on a regular basis;
- Helping to prevent the Northwestern Military Academy property from becoming a dense multi-family development with hundreds of units.
- Aggressive lake community response to the emergency need for rebuilding the Lake Geneva City Dam controlling the water level of the entire lake;
- Participating in the successful lake-wide initiative to stop the serious development effort of turning the Yerkes Observatory property into a large scale lake front hotel/spa complex with potential environmental and land/lake conservation damage resulting;
- The ongoing 45-year affiliation with its sister organization, the Environmental Education Foundation, as it provides scholarships and grants to lake area students for environmental-centered studies and experiences.
- Providing an annual forum each summer for members to hear from local leaders on current issues related to property trends, water quality, boating safety and area-wide conservation efforts, among other topics.

Annual Meeting

Saturday, August 21, 2021
Lake Geneva Country Club
Lake Geneva, Wisconsin

WELCOME – President Lillie called the meeting to order at 9:35 a.m. and thanked the attendees for their support of an in-person meeting and for their generosity, noting an increase in membership donations of 14% in spite of the pandemic. Lillie introduced the GLA officers and read the GLA mission statement, noting that the GLA does not have regulatory authority over lake issues, but is ready to educate and communicate, most recently focusing on water quality issues via the GLA Guardian and the website.

In previewing some of the guest speakers who follow, Lillie noted that overall, the water quality for one of the busiest lake in Wisconsin is very good, but threats exist in the form of phosphorus, erosion, and invasive species.

MINUTES FROM THE VIRTUAL ANNUAL MEETING, AUGUST, 2020 – A motion to approve the minutes as published was passed unanimously (McClayton/Grayson).

GLA GRANT PROGRAM / STEWARDSHIP AND PROGRESS – Grants to local associations whose missions are compatible with GLA were focused on Water Quality improvements, and included a partnership with the Water Alliance, EEF, GLC and the DNR to purchase a CD3 water cleaning system which was rotated among the public launch ramps as an experiment, and funding for winter cover crops to save soil and prevent phosphorus runoff into the lake.

NOMINATING COMMITTEE REPORTS – Nominating Committee nominated the following, which were approved unanimously:

EEF Directors for three-year terms ending in 2024: Shannon McCarthy (first term), Ted Peters (first term), Rob Rowe (first term), Bill Thompson (second term), and Carol Zimmermann (first term).

GLA Directors with three-year terms to expire in 2024: Mark S. Lillie, Sally Jouris, Thomas T. Stuhley, James W. Gee, Patrick Kenny, Frank K. Voris, Thomas G. Gardiner, Robert Klockars, and David B. Williams.

Retiring EEF board members Colin Griffith, Melita Grunow, Jim Gee, and retiring President Carl Rathmann were thanked for their dedicated service to the Foundation.

ENVIRONMENTAL EDUCATION FOUNDATION – EEF President Bill Thompson announced that thanks to the generosity of the community along with a grant from the GLA, the EEF also raised more funding for scholarships over the past year. While traditional middle school outdoor education programs were not held, funding was provided to Big Foot Recreation, Kishwaukee, and Sharon Schools to equip programs introducing student to outdoor nature activities. In addition, high school graduating seniors and college undergraduate students benefitted from the traditional EEF scholarship packages, the Geneva Lake Astrophysics and STEAM received additional funding for the LENSS (Dark Sky) program, and a new Thomas E. Reynolds, Jr. Gateway Technical College Scholarship was instituted.

YERKES FUTURE FOUNDATION – Chair Dianna Colman outlined the activities going on at Yerkes. Construction will continue for another year or two, and includes complete rewiring and lighting, refurbishing flooring, as well as exterior improvements. Solar panels on the flat roofs will provide 60-75 % of the electrical need for the building and exterior charging

station for electric automobiles. Dennis Kois has been hired as Director and comes with vast experience and enthusiasm. He will be hiring more staff to meet future operating needs. Landscaping projects include removing buckthorn, building welcoming, pollination, and rain gardens. Public exhibits are being planned for a soft opening in the fall, and donations and volunteers are encouraged.

LEGISLATIVE REPRESENTATIVES:

Representative Amy Loudenberg announced that a balanced state budget was completed in a timely fashion and that it provides for a surplus and tax cuts. Loudenberg is versed in land use and water quality issues and as a legislator tries to help achieve the goals of diverse groups while remaining in compliance with good environmental practices. Loudenberg worked with the Water Safety Patrol to fix a loophole in the law pertaining to boat operator licenses, and was happy a couple of years ago to help carve out an exception for Geneva Lake, requiring spotters on boats pulling skiers and other water sport activities. Loudenberg hope to find ways to allocate increased funds from boat fees to be used by groups like GLEA for preserving and protecting lakes.

Representative Tyler August was unable to attend due to a prior commitment.

AFFILIATED ASSOCIATION REPORTS

Water Alliance for Preserving Geneva Lake – Tom Nickols and Charles Colman related the history and goals of the Water Alliance, which started two years ago, not as a new organization, of which there are already many, but as a medium for representatives from all of the organizations to meet, share, and coordinate ideas. The group has representatives from EEF, GLA, GLC, GLEA, DNR, SEWRPC, and other entities, all interested in preserving the quality of Geneva Lake.

SEWRPC has provided a map of the 50 tributaries that run into the lake. Current studies show that some of the streams are healthy contributors to the lake; some are not. The stream running into the lake by Big Foot Beach is most undesirable. Other areas where improvements can be made include the runoff from the gravel pit in Williams Bay, and the routing of the stream that flows along highway 67. Rerouting the stream that flows into Abbey Harbor is an improvement, and Fontana is engaged in many projects including retention ponds that will benefit the lake and prevent flooding. The GLC takes the lead on many of these projects, which also include encouraging and finding funding for winter cover crops.

Walworth County Land Use and Resource Management – On behalf of Walworth County, Brian Smetana deals with farmers to employ conservation practices for the land. He encourages farmers to plant cover crops and use no-till farming. His department looks for problem areas such as creeks runoff and tries to find realistic solutions. He put together the proposal which was used by three south shore area farmers to plant cover crops this past winter. The participating farmers will benefit from less soil loss from erosion, and an increase in soil nutrition. The lake will benefit from less phosphorus runoff from the farms via the watershed.

Asked about the vast construction at the large dairy farm on the south side of the lake, Smetana explained that farms like this with over 1,000 animals are regulated entirely by the DNR, and that new DNR rules require holding areas for feed leeching now as well as holding areas for manure. The construction at Snudden Farms is intended to help the property come into compliance with the new requirements.

ENVIRONMENTAL EDUCATION FOUNDATION, Mission

The mission of the EEF is to award educational scholarships and grants to area students and schools for environmental-centered studies and to promote environmental awareness to all ages of the Geneva Lake area.

See page 66 for the EEF By-Laws.

The Environmental Education Foundation (EEF) was founded in 1980 as an affiliate of the Geneva Lake Association. Mr. Thomas E. Reynolds, Sr. and Mr. Fillmore W. Galaty, both past presidents of the Geneva Lake Association, recognized an opportunity to promote environmental education by offering scholarships and environmental experiences to Geneva Lake area youth. Their dedication to area youth and environmental awareness led to the formation of the Environmental Education Foundation. The EEF is an independent, tax exempt 501(c) (3) affiliate of the Geneva Lake Association.

During its 42-year history, the EEF has awarded nearly \$600,000 in college scholarships, and camping and outdoor education grants benefiting over 500 area students and schools, from 5th grade through graduate school. Nearly \$50,000 is available annually to students in a variety of age groups and educational levels. Included in this amount is the Environmental Education Foundation Thomas E. Reynolds (TER) Endowment Fund, which annually contributes \$12,000 in the form of a four-year scholarship to a qualified local graduating senior interested in pursuing a degree in the environmental science field.

Past scholarship recipients include students from Badger High School, Big Foot High School, Williams Bay High School, and Faith Christian High School. In 2021, EEF scholarships became available to Gateway Technical College students for environmental-centered certificates or associate degrees. Funding for environmental activities such as Outdoor Education grants are awarded to local elementary and middle school students.

EEF also funds local environmental research and educational studies pertaining to the Geneva lake area. One such study was of the creek flowing into Geneva Lake at Buttons Bay. EEF has also funded the the Lakeshore Environmental and Night Sky Sensor project (LENSS) guided by Geneva Lake Astrophysics and STEAM (GLAS) Education, Inc.

Applying for Scholarships or Grants

Williams Bay 6th and 7th graders (making up for missing 2021), attended separate Outdoor Ed events in 2022, and learning, among others things, about swamp aquatics.

The EEF maintains an informative website at www.eefscholars.org. The website includes descriptions of the scholarships that are available, as well as download-able and online application forms.

Donors Welcome

Contributions to the Environmental Education Foundation, Inc. are deductible for income tax purposes, and donations may also be made via the Foundation's website.

Meet our current Thomas E. Reynolds, Sr. Scholars...

It is customary for the EEF scholarship recipients to be introduced at the Annual Meeting of the Geneva Lake Association. In 2021, however, because of the corona virus pandemic, the meeting was limited to members. Many scholars earlier attended a celebration of EEF Past and present EEF Directors.

We are proud to present here our current Thomas E. Reynolds Endowment Scholars. The \$12,000 scholarship is a

four-year award for those who successfully maintain their environmentally-focused pursuits.

"Our goal is to support area students who want to protect the environment through their scholastic studies and future vocations," said retiring EEF President Carl Rathmann.

Scholarships for graduating high schools seniors, undergraduate students, and graduate students are all described on the EEF web site: www.eefscholars.org.

Melissa Konkel, 2020 graduate of Big Foot High School, now a sophomore at UW-Madison.

Emily Sheen, 2019 graduate of Badger High School, now a freshman at UW-Platteville.

Danielle Wresinski, 2018 graduate of Big Foot High School, now a senior at Iowa State.

Ava Beyers, 2021 graduate of Big Foot High School, now a senior at Carthage College.

The EEF appreciates the donors supporting the EEF scholarships and awards in 2021 and 2022, which include these donors (as of April 19, 2022)

LAKE SHORE PATHS

The Lake Shore path on Geneva Lake has existed for more than 100 years. There seems to be no specific judicial ruling as to the status of this Lake Shore path. It is believed to consist of an easement in favor of the public, and upon this basis the following answers are offered:

Question: Where does this easement exist?

Answer: It exists only upon the location in which it has been used without change or variation for the prescriptive period of twenty years, provided by our statute, although a slight variation at a given point will not impair such rights.

Question: Does an owner of property have a right to materially alter its course or character, even if such alteration be of public benefit?

Answer: No. If, however, an owner does make such change and if the public continues in the use of the easement in its altered condition for a length of time sufficient to show acquiescence in the change, effective complaint cannot afterward be made because of the change.

Change in a structure, however, which does not impair the easement but tends to ornament it, does not constitute any violation of the right owed by the owner to the public.

Where the owner alters the location of the easement, as to its direction and grade, such as the case where he deflects it from its original course and causes it to descend a bank, possibly supplying steps or some other means, although the user of the easement is not obliged to travel upon the path as changed, he may do so, and when he does so, it is by the license or implied consent of the owner.

There seems to be no duty of an owner toward a license, beyond the avoidance of any active, willful act, structure or contrivance which might injure the license.

Question: Can an owner be held liable for one injured by a danger concealed only by the darkness of night?

Answer: No. It is, however, strongly recommended that in case of changes made by owners as to the surface, course or level of the path crossing his property, it be so supplied so that travel thereon be not more hazardous than that part of the path discontinued. Proper guard rails are suggested.

It is very dangerous to prescribe limitations on liability and to define corresponding rights as applied to any specific instance. The above statements are on the general principles involving the relative rights of the public and liabilities of owners of Lake Shore property.

The following answers to questions are based on the opinion of legal counsel:

Question: Is Geneva Lake a navigable lake?

Answer: Yes. It is so designated by Government Survey.

Question: In whom does title rest?

Answer: Title to the bed of the lake is vested in the State of Wisconsin, which holds title as trustee for the public to the end of maintaining and preserving the rights of the public in navigation thereof.

Question: What are the riparian owner's rights?

Answer: Riparian owners own their land on a navigable lake in fee simple down to low water mark. Their rights are based on their ownership and title to the banks. This ownership gives to them the exclusive privilege to the shore for the purpose of access to their land and the water. These rights include the right of using the shore for the building of piers extending into the water beyond low water mark, walls to prevent loss of soil by erosion, waves, etc.

Question: What rights and control does a riparian owner have over his private pier?

Answer: Private piers constructed and abutting on the private shore property constitute the sole and private property of the owner of the adjoining land; such owner is as free to prohibit the entrance upon such pier of unauthorized persons (except in emergency of storms, distress, etc.) as he is to deny his home to them. His dominion and control over the shore line is of the same nature, subject only to the right of navigation over the waters of the lake.

Question: May an unauthorized person moor a boat near a private pier and may he make a landing on private property?

Answer: No unauthorized person may moor a boat or a raft in front of private property in any manner that might interfere with reasonable navigation, to and from such property at any time. It is believed that the choice of an owner or his authorized friends as to the course of water ingress to or ingress from the property should rest entirely with the owner or his friends so using the property. Owner of such private property may notify any unauthorized person to remove such boat or raft, or may remove such boat or raft or cause same to be removed, in a manner not doing more harm to the boat than must necessarily result from its act of removal. Care should be exercised by the owner to avoid unreasonable action in the matter and to avoid further any manner of carrying out the removal of the boat from which malice could be inferred.

Annual Meeting

(continued from page 5)

Geneva Lake Water Safety Patrol –Ted Pankau and Brigid Cashman spoke on issues affecting the WSP, now into its second century of service. Pankau noted that the last two years have been very busy years, and notes 11 lifesaving pullouts this year. Pankau cautions boaters who swim off the boats and don't realize the speed by which a boat can get away in high winds, noting that drownings have occurred when people get separated from the boat. Lifejackets need to be accessible, not stowed, and throwables are the most convenient way to help a struggling swimmer.

Cashman reported that two in-person boat safety classes were held this year, mostly with kids but with some young adults as well who are of the age that require licensing, and emphasized that the in-person training is much more effective than on line classes. Over 700 children received swimming lessons this year and many participated in WSP lifeguard classes. Cashman reminded the membership that the WSP is not government funded, and welcomes donations.

Geneva Lake Environmental Agency – Retiring Director Ted Peters received applause in appreciation of his 45 years at the Agency as he thanked all the groups who worked so well with him and on behalf of the lake. Regarding starry stonewort, Peters relates that it is now existent throughout the Trinke lagoon, but new infestations have not been discovered at public entry points that were investigated. The plants that exist are mixed in with healthy native plants, and it may be best to let healthy plants keep it in check. Removal experiments throughout Wisconsin and in other states have not been successful. Peters hopes to have a town hall meeting with the DNR on the issue later this fall.

Peters reports that the Clean Boats/Clean Water program in combination with the CD3 station have had positive results in keeping infestations from entering or leaving Geneva Lake and have had an educational impact on the public who use the launch facilities. Peters encourages each community to provide a CD3 at their launch sites. Peters believes that the demand to better manage invasive species in our waters is increasing in Wisconsin, and hopes that the legislature could consider these management costs when it reviews allowable launch fees at each municipality.

Real Estate Market Trends – Bob Rauland, from Rauland Realty, highlighted real estate market trends especially those related to lakefront and lake access houses. Bob provided a hand out with current statistics and maps of Walworth County lakes. The handout was available in the room, and copies are available from the Rauland office. Rauland reports that inventory remains low and there is little or no vacant lakefront property available.

Information in the handout shows a significant increase in prices over last year. Many homes are sold at above listing prices. And prices are higher as well. For example, on the lakefront properties sold, the average per frontage foot price in 2020 was \$38,000. In 2021 it is \$45,000 per frontage foot. For lake access sales, the average price in 2020 was \$600,000. In 2021, the average price was \$740,000.

Rauland was thanked for his forty some years of reporting at the GLA Annual Meetings.

President Lillie encouraged members to look for the great content that has been added to the GLA web site and adjourned the meeting at 11:15 a.m.

Respectfully submitted,

James A. Smith, Executive Secretary

The rights granted herein shall not be deemed exclusive of any other rights to indemnification against Liabilities, damages, costs, and Expenses, or the advancement of Expenses to which a Director or Officer may be entitled under any written agreement, Board resolution, statute or otherwise. Further, all such rights shall continue as to any person who has ceased to be a Director or Officer, and shall inure to the benefit of the heirs, executors, administrators and assigns of such person.

Article 10-2 - Liability: Upon receipt of a request for indemnification against Liabilities and Expenses and/or advancement of Expenses pursuant to this provision, a prompt determination shall be made by a disinterested quorum of the Board, if available, or by such other means recognized by law, to determine the requesting Party's right to indemnification or advancement. If no such determination is made within thirty (30) days from the date of the request, it shall be conclusively presumed for all purposes that the requesting Party has rights to indemnification and for advancement unless, by proper resolution of the Board, said thirty (30) day deadline is extended. The Association may, but shall not be obligated to, supplement the foregoing rights to indemnification against Liability and Expenses, and/or advancement of Expenses by purchasing insurance on behalf of any one or more Directors or Officers, regardless of whether the Association shall be obligated to indemnify against Liability or advance Expenses to the Director or Officer covered by said insurance.
